Verosol® Omniascreen

Metallised 3% openness
Verosol® Omniascreen Sunscreen

Features

Verosol Omniascreen sunscreen helps you to create natural shade, block sun glare, control indoor temperature and save a tremendous amount of energy on cooling, lighting and heating. It is versatile with an ultra-thin layer of aluminium, highly reflective (up to 74% solar reflection) and helps to control temperature effectively. With the beautiful transparency sun glare can be blocked without blocking the view, giving the inside of the building a more open and spacious appearance whilst enhancing the living and working space.

Care Instructions

Verosol fabrics are anti-static and therefore dust repellent. For regular maintenance, use a soft feather duster or vacuum-clean with a soft brush in a low setting.
